PROFILE

Full-stack developer with 4+ years creating immersive digital experiences. With a background in both design and development, I balance form and function — websites and apps that look great and perform flawlessly. Currently building backend services at Approvable.app, after leading the frontend team at Life INC.

EXPERIENCE

Backend Developer — 2026 — Present
Approvable.app

Building the backend for a visa application review and refusal-reapplication platform that helps travellers check their documents are ready before they apply.

Senior Frontend Developer — 2024 — 2025
Life INC.

Led the frontend team developing modern software applications with React.js, Next.js, JavaScript and TypeScript.

JavaScript Certified Developer — 2023 — 2024
Techub EKSU

Earned certification in JavaScript, sharpening frontend skills by building dynamic, interactive web applications.

Web Designer — 2022 — 2023
D'Lence Technologies

Designed user-friendly, visually engaging websites with a focus on layout, responsiveness and user experience.

Web Designer in Training — 2021
D'Lence Technologies

Began the journey into web design — learning HTML, CSS and design principles through online resources and practice projects.

SKILLS

Frontend

PORTFOLIO

Selected projects

Eleven shipped builds across web apps, websites and tools. Source on github.com/theKingSi.

Prompt AI — Web App

Generates developer-ready prompts from URLs, screenshots and ideas, with chat refinement, multi-theme customisation and subscriptions.

Next.js · TypeScript · Tailwind CSS · ShadCN · React Hook Form · TanStack Query · Vercel

Medi Track — Web App

Medicine inventory dashboard with real-time stock tracking, expiry monitoring, role-based access, analytics and low-stock alerts.

Next.js · TypeScript · Tailwind CSS · ShadCN · Python · MongoDB

Droply — Tool

Fast, private file sharing across devices — drop files and connect instantly by room code or QR.

Next.js · TypeScript · Tailwind CSS · ShadCN · Framer Motion · Python · Vercel

Kenneth Dike Library — Web App

Clean, modern platform giving visitors easy access to library information, services and resources.

Next.js · TypeScript · Tailwind CSS · ShadCN · Framer Motion · Firebase · MongoDB

Church Website — Web App

Church and online-ministry platform with an admin dashboard for updating and removing site content.

Next.js · TypeScript · Tailwind CSS · ShadCN · Firebase · Vercel

Fun-Learn — Web App

Turns any uploaded book into a learning experience with smart summaries, quizzes, interactive games and audio versions.

Next.js · TypeScript · Tailwind CSS · ShadCN

Attendance Manager — Web App

Attendance management system for events and classes, surfacing interest, reliability and active participation.

Next.js · TypeScript · Tailwind CSS · ShadCN

Cosmic Explorer — Website

Space-exploration site built on NASA's Astronomy Picture of the Day, with APOD and gallery sections.

Next.js · TypeScript · Tailwind CSS · ShadCN · NASA API

Filer — Tool

Drag-and-drop file converter that turns any file into your preferred format in seconds.

Next.js · TypeScript · Tailwind CSS · ShadCN

Birthday Website — Website

Playful, interactive birthday-themed site with canvas animations and personalised messages.

Next.js · TypeScript · Tailwind CSS · Canvas · Framer Motion

CGPA Calculator — Tool

Simple, intuitive web app that calculates CGPA from course grades and credit units.

HTML · CSS · JavaScript

See every project live, with source code
